Alfred Pansacala

QA Lead & Testing Specialist | Software & Digital Product QA | Localization Specialist | MQA | AI Model Trainer | LQA: Tagalog, Filipino & Cebuano (iGaming, Casino, LQA Game Tester) | Improving Product Quality & Accuracy
Zamboanga, Zamboanga Peninsula, Philippines

Summary

I'm Alfred Pansacala, a QA Lead & Testing Specialist, AI/Data Trainer, and multilingual linguist from the Philippines. I bring 4+ years of experience across software testing, iGaming, localization, AI training, and data quality.I've completed 800+ QA test cycles across 300+ products and documented 1,000+ defects. As a trained Test Team Lead (TTL), I've also mentored testers and supported test planning, QA documentation, and reporting.My QA work covers:• Manual, functional, regression, smoke, and exploratory testing• Mobile, web, cross-browser, and casino platform testing• Payment, security, usability, and localization testing• Test case design and execution, defect reporting, and fix verificationI've localized and reviewed 500,000+ words across gaming, software, marketing, legal, healthcare, and other content. I translate, proofread, edit, perform machine translation post-editing (MTPE), and conduct linguistic QA in Tagalog, Filipino, and Cebuano, with attention to terminology, cultural context, and brand voice.My AI/data work includes multilingual LLM training and evaluation, prompt testing, red teaming, NLP, semantic analysis, search relevance, ads quality, user intent, and dataset validation. I've contributed to 100K+ multilingual AI datasets and a Tagalog Text-to-Speech project involving 300K + entries through IPA transcription and linguistic quality review.I also audit AI-generated Tagalog responses and annotation quality for accuracy, naturalness, relevance, and consistency.Through freelance and project-based work, I've supported QA, localization, AI, and data projects involving Meta, Airbnb, Amazon, Google, Western Union, Payoneer, Coinbase, Nike, Spotify, Discord, Reddit, ESPN, SonyLIV, PokerStars Casino, Playtech, and WPT Global.Tools: Jira | TestRail | Chrome DevTools | Postman | Selenium | BrowserStack | Crowdin | CAT Tools | OneSky | Smartling | Labelbox | CVATTechnical skills (basic): Python | C++ | HTML | JavaLanguages: Tagalog, Filipino, and Cebuano (native) | English

(professional) | Spanish (limited working proficiency)I hold a BS in Biology, major in Medical Biology, graduating Cum Laude. I bring the same care for accuracy to finding software issues, reviewing language, and evaluating AI outputs.I'm open to opportunities in QA, localization, linguistic QA, AI model evaluation, and data quality.

Experience

Applause
Community Tester
July 2026 - Present (5 months)

RWS
3 years 6 months

AI Model Quality Auditor – Tagalog
August 2026 - Present (4 months)

Conduct linguistic quality audits of AI-generated conversational outputs in Tagalog, evaluating model performance and annotation quality against established quality standards and evaluation criteria.

• Audit and compare AI model responses for naturalness, engagement, utility, relevance, accuracy, and overall quality.
• Review annotator evaluations and verify ratings, error classifications, and supporting rationales for consistency and accuracy.
• Identify linguistic, conversational, behavioral, and audio-related quality issues using standardized evaluation taxonomies.
• Apply structured scoring frameworks and provide evidence-based feedback to ensure reliable and consistent quality assessment.
• Perform Tagalog language evaluation with strong attention to fluency, cultural appropriateness, linguistic accuracy, and localization quality.
• Identify recurring quality issues and emerging patterns to support improvements in AI model and annotation performance.
• Maintain strict adherence to project guidelines, quality standards, confidentiality, and language-specific requirements.

AI Data Annotator & Search/Model Evaluator
June 2023 - Present (3 years 6 months)

Worked on AI and search quality evaluation projects for RWS, supporting the improvement of search engines, AI models, and online content through structured data annotation and quality assessment.

- Evaluated search engine results for relevance, accuracy, usefulness, and overall quality based on detailed project guidelines.
- Performed Safety Page Rating, assessing webpages and online content for safety, appropriateness, and potential policy violations.
- Evaluated AI/model outputs for quality, accuracy, relevance, and adherence to predefined evaluation criteria.
- Performed data annotation and labeling tasks to support the training and improvement of machine learning and AI systems.
- Reviewed and classified content consistently while maintaining high attention to detail and guideline compliance.
- Identified errors, inconsistencies, and quality issues in search results, webpages, and AI-generated content.
- Applied complex rating guidelines and maintained consistency across large volumes of evaluation tasks.
- Contributed to improving the quality, reliability, and safety of AI-powered search and machine learning systems.

TESTA
Casino | iGaming QA Tester
October 2025 - Present (1 year 2 months)

- Conduct iGaming QA Testing for Casino or gambling sites, mobile games applications and websites.

- Conduct Security testing, Payment testing, Usability Testing, Localization testing and other testing, ensuring the utmost quality and functionality of the product.

- Identify defects, issues, problems, and create report bugs for the development team to assess and solve.

EC Innovations, Inc.
Tagalog LQA Game Tester
August 2025 - Present (1 year 4 months)
Wilmington, Delaware, United States

- Conducted linguistic quality assurance (LQA) testing for game products to ensure high-quality Tagalog localization.

- Identified and reported linguistic, functional, and cosmetic bugs related to Tagalog translations.

- Verified accuracy, consistency, and cultural appropriateness of localized text.

- Translated non-localized text and suggested corrections to improve localization quality.

- Collaborated with QA teams and developers to resolve issues and enhance the overall user experience.

1win
Localization QA Specialist | Tagalog, Filipino
August 2025 - Present (1 year 4 months)

- Localized and translated 50,000+ words of iGaming content, including casino, sportsbook, CRM, VIP, marketing, and legal materials for the Philippine market.

- Performed proofreading and linguistic review of 20,000+ words, ensuring accuracy, consistency, and adherence to brand tone and style guidelines.

- Adapted CRM and marketing content such as emails, push notifications, SMS, banners, and social media posts to improve engagement and user clarity.

- Ensured high-quality localization through terminology consistency, cultural adaptation, and compliance with project-specific requirements.

- Worked within Crowdin to manage and deliver multilingual localization tasks in a fast-paced, deadline-driven environment.

- Contributed to end-to-end localization workflows, supporting continuous content updates and maintaining linguistic quality across ongoing iGaming projects.

Skills:
Localization, translation, proofreading, linguistic quality assurance (LQA), iGaming localization, casino and sportsbook content localization, CRM and marketing localization, VIP communications localization, legal and compliance translation, Tagalog/Filipino language localization, English-to-Tagalog translation, content adaptation and transcreation, terminology management, style guide compliance, Crowdin CAT tool usage, multilingual content review,

deadline-driven localization workflows, quality assurance in localization projects.

TELUS Digital AI Data Solutions
1 year 6 months

Tagalog Linguist – IPA Specialist (Maker)
June 2025 - Present (1 year 6 months)

- Contributed to a large-scale Text-to-Speech (TTS) project involving over 300,000 Tagalog (Filipino) language data entries, aimed at building a high-quality pronunciation dictionary.

- Started as a Maker, responsible for crafting, correcting, and transcribing Tagalog sentences using the International Phonetic Alphabet (IPA) to ensure phonological accuracy.

- Played a key role in the creation of a precise IPA-based pronunciation dictionary that supports advanced Tagalog speech technology.

QA Linguist – IPA & Data Quality Reviewer
June 2025 - August 2025 (3 months)

- Promoted to QA Linguist, where I conducted quality assurance on submitted datasets—reviewing and verifying the accuracy of IPA transcriptions, word corrections, and sentence structure.

- Ensured that all outputs adhered to strict linguistic and phonetic standards, helping maintain the integrity of the 300k dataset used for TTS development.

- Approved or rejected IPA transcriptions, word corrections, and sentence constructions.

- Ensured linguistic accuracy, phonetic integrity, and compliance with project standards for Tagalog TTS development.

Uber AI Solutions
Translation Specialist
April 2025 - Present (1 year 8 months)
United States

Appen, Dataforce, RWS & Opentrain AI
AI | LLM Trainer
June 2023 - Present (3 years 6 months)

United States

- Trained multilingual AI models (Claude, Meta AI, Falcon LLM) for Tagalog and cross-language tasks.

- Improved AI response accuracy by 25% through prompt engineering and red team exercises.

- Led annotation and labeling of 100K+ multilingual datasets for search relevance, ads evaluation, and user intent alignment.

- Supported Falcon LLM in regional NLP tasks including semantic understanding and localized content generation.

- Analyzing AI model outputs, identifying data patterns, and optimizing AI model

uTest
Quality Assurance Tester Trained Test Team Lead(TTL) | uTest
December 2022 - Present (4 years)

- Executed 512+ test cycles and 732+ test cases across 139+ products; identified 500+ defects with 92%+ accuracy in functional, regression, integration, system, usability, performance, load and stress, security, localization and internationalization, compatibility, acceptance, smoke and sanity, exploratory, and automated, each aimed at ensuring software quality, reliability, and user satisfaction.
- Promoted to Trained Test Team Lead (TTL); led and mentored junior testers, managed test case design, content scoping, QA documentation, and end-of-cycle reporting.
- Improved overall product reliability by 30% through strategic prioritization of critical defects and close collaboration with development and product teams to streamline resolution workflows.
- Applied critical thinking and analytical skills to identify patterns, optimize QA processes, and enhance overall product quality

Freelance
Virtual Assistant
August 2022 - Present (4 years 4 months)

Responsible in data entry task, data management, security and confidentiality of the data's.
Ensures task done on time and accurately.

Freelance
Data Entry Specialist
January 2023 - January 2025 (2 years 1 month)

Ciudad Medical Zamboanga
On-The-Job Training in Medical Biology
June 2024 - July 2024 (2 months)
Zamboanga City

On the Job Training in Medical Biology

Supply Chain Department:
- Preparation of Medical Supplies: Prepared necessary supplies for different departments.
- Inventory Management: Managed and tracked supplies inventory.
- Supplier Coordination: Contacted and coordinated with medical supply manufacturers.

IPD Pharmacy - IPD Stockroom:
- Medicine Preparation: Prepared medicines for the in-patient pharmacy.
- Drug Inventory Management: Maintained inventory of medical drugs.
- Pharmaceutical Procurement: Coordinated with pharmaceutical companies for medicine supplies.

Successes
- Streamlined inventory management processes.
-Established strong supplier relationships.
- Developed tracking systems for medical supplies.
- Improved accuracy of drug inventory records.
