ALFRED PANSACALA

QA Lead & Testing Specialist | Software & Digital Product QA | Localization Specialist | MQA | AI Model Trainer | LQA: Tagalog, Filipino & Cebuano (iGaming, Casino, LQA Game Tester)

+63 9752425938 pansacala.alfred04@gmail.com Linkedin Portfolio

Professional Summary

Results-driven Quality Assurance Tester, AI/LLM Trainer, and Multilingual Linguist with 4+ years of experience across iGaming, mobile and web applications, AI model training, multilingual localization, and digital product quality assurance. Contributed to QA, localization, payment, and AI projects for globally recognized brands and platforms including Meta, Airbnb, Amazon, Google, Nike, Spotify, PokerStars Casino, Playtech, WPT Global, and more. Proven track record of improving product reliability by 30%, increasing AI response accuracy by 25%, reporting 1,000+ bugs, and executing 800+ QA test cycles across 300+ products. Combines QA precision, multilingual language expertise (Tagalog, Filipino, Cebuano, English), and AI/data experience to deliver stable, accurate, and high-performing digital products.

Professional Experience

FreelanceQualityAssurance Tester
UTest (Silver Rating & Trained Test Team Lead) **December 2022 - Present**

- Executed 557+ test cycles and 827+ test cases across 154+ products; identified 500+ defects with 92%+ accuracy in functional, regression, integration, system, usability, performance, load and stress, security, localization and internationalization, compatibility, acceptance, smoke and sanity, exploratory, and automated, each aimed at ensuring software quality, reliability, and user satisfaction.
- Promoted to Trained Test Team Lead (TTL); led and mentored junior testers, managed test case design, content scoping, QA documentation, and end-of-cycle reporting.
- Improved overall product reliability by 30% through strategic prioritization of critical defects and close collaboration with development and product teams to streamline resolution workflows.
- Applied critical thinking and analytical skills to identify patterns, optimize QA processes, and enhance overall product quality.

June 2024 - Present

Freelance Localization QA Specialist & LQA Linguist – Tagalog & Filipino
1win | EC Innovations, Inc. | TELUS Digital AI Data Solutions

1win – Localization QA Specialist (Translation, Proofreading & MTPE)

- Localized and translated 50,000+ words of iGaming content (casino, sportsbook, CRM, VIP, legal, marketing) for the Philippine market.
- Proofread and reviewed 20,000+ words; ensured accuracy, brand tone adherence, and style guide compliance.
- Adapted CRM and marketing assets (emails, SMS, push notifications, banners, social media) for improved user engagement.
- Delivered multilingual localization tasks via Crowdin CAT tool in deadline-driven workflows.
- Maintained cultural adaptation, terminology consistency, and project compliance across ongoing updates.

EC Innovations, Inc. – Tagalog LQA Game Tester

- Conducted linguistic quality assurance (LQA) testing for Tencent titles (Honor of Kings, GTS) and other game products to ensure high-quality Tagalog localization.
- Identified and reported linguistic, functional, and cosmetic bugs related to Tagalog translations.
- Verified accuracy, consistency, and cultural appropriateness of localized game content.
- Translated non-localized text and suggested corrections to improve localization quality.
- Collaborated with QA teams and developers to resolve issues and enhance the overall user experience.

TELUS Digital AI Data Solutions – QA Linguist | IPA Specialist

- Contributed to a large-scale TTS project (300,000+ Tagalog data entries), supporting development of an IPA-based pronunciation dictionary for speech technology.
- Promoted from IPA Specialist to QA Linguist; reviewed and verified IPA transcriptions, word corrections, and sentence structures for accuracy.
- Approved or rejected IPA transcriptions and sentences based on linguistic and phonetic standards, ensuring dataset integrity for Tagalog TTS development

RWS – AI Model Quality Auditor – Tagalog & Filipino

- Audit AI-generated Tagalog responses for naturalness, relevance, accuracy, and linguistic quality.
- Review annotation ratings, error classifications, and evaluation rationales.
- Identify linguistic, conversational, and audio-related issues using standardized quality criteria.

Freelance Casino & iGaming QA Tester **October 2025 - Present**
TESTA

- Execute comprehensive QA testing for casino and iGaming platforms (mobile and web), ensuring product stability and user experience.
- Perform security, payment, usability, localization, functional, and regression testing to validate end-to-end workflows against quality benchmarks.
- Identify, document, and report defects using structured bug reports, enabling rapid resolution across fast-paced release cycles.

- Conduct cross-platform compatibility testing across mobile (iOS/Android) and web browsers (Chrome, Firefox, Safari, Edge).
- Collaborate with cross-functional QA and development teams to prioritize defects and maintain quality standards throughout the SDLC.

Freelance AI & ML Trainer & Red Team Specialist **June 2023– Present**
Appen, Dataforce, RWS & Opentrain AI

- Trained and evaluated multilingual large language models (LLMs) — including Claude, Meta AI, and Falcon LLM — for Tagalog and cross-language NLP tasks, including dialogue fine-tuning, semantic reasoning, and content logic assessment.
- Improved AI response accuracy by 25% through advanced multilingual prompt engineering, structured red team testing, systematic bias evaluation, and iterative model feedback workflows.
- Led annotation and labeling of 100K+ multilingual datasets for search relevance scoring, ads evaluation, and user intent alignment using Labelbox and CVAT.
- Evaluated AI model outputs to identify data patterns, linguistic inconsistencies, and optimization opportunities, enhancing semantic understanding and localized content generation for regional NLP applications.
- Collaborated with research and product teams to fine-tune LLMs for narrative-driven gaming experiences and interactive user workflows, supporting model accuracy and cultural relevance.

Key Project Achievements

iGaming QA Excellence
Achieved 100% testing approval rate | 50+ Casino Platforms

- Executed 512+ test cycles, 713+ test cases across 139+ products with 92% accuracy. Achieved zero critical defects in production releases for 50+ casino platforms. Reported 200+ bugs with 95% reproducibility, accelerating developer resolution time by 30%.

Tagalog LLM Enhancement
Improved AI response accuracy by 25%

- Trained multilingual large language models (Claude, Meta AI, Falcon) for Tagalog and cross-language tasks. Led annotation and labeling of 100K+ multilingual datasets for search relevance and ad evaluation. Conducted red teaming to identify and mitigate biases.

Tagalog TTS Pronunciation Dictionary
300K+ Entries | 99% Phonetic Accuracy

- Built IPA-based dictionary with 300K+ entries for TELUS Digital. Transcribed and corrected Tagalog sentences using International Phonetic Alphabet (IPA) to ensure phonological accuracy for speech technology development.

iGaming Localization at Scale
50,000+ Words Localized | 20,000+ Words Reviewed

- Localized and translated 50,000+ words of casino, sportsbook, CRM, VIP, and legal content for the Philippine market at 1win. Performed proofreading and linguistic review of 20,000+ words, ensuring brand tone, terminology consistency, and style guide compliance across a fast-paced Crowdin workflow.

Core Competencies and Skills

iGaming & QA Testing: Casino & Gambling Platform QA, Payment Testing, Security Testing, Functional Testing, Regression Testing, Usability Testing, Localization QA, Cross-Platform Compatibility, Smoke & Sanity Testing, Exploratory Testing, Test Case Design, Defect Reporting, SDLC & SQA.

AI & Data Training: LLM Training & Evaluation, Multilingual Prompt Engineering, Red Team Security Testing, Data Annotation & Labeling, Search Relevance Scoring, Ads Evaluation, User Intent Alignment, Semantic & NLP Analysis, Labelbox, CVAT, etc.

Linguistic QA & Localization: LQA (Tagalog, Filipino, Cebuano, English), IPA Transcription & Phonetic Accuracy, Translation & Transcreation, Cultural Adaptation, Terminology Management, Style Guide Compliance, Game & iGaming Localization, CAT Tools (Crowdin, OneSky, Smartling, etc.)

Tools & Platforms: JIRA, TestRail, Chrome DevTools, Postman API, Selenium, BrowserStack, Figma, Microsoft Office, Google Workspace, Slack, Teams, Zoom, AI Agent Automation, and more.

Programming (Basic): Python, C++, HTML, Java

Languages: Filipino / Tagalog (Native), Cebuano (Native), English (Professional Working), Spanish (Limited Working)

Education

August 2021– May 2025

BachelorofScience in Biology- Major in Medical Biology (CUM LAUDE)
Western Mindanao State University

CERTIFICATIONS & TRAINING

- Trained Test Team Lead (TTL) – uTest (2025)
- UTest Academy Completion
- Freelancer Conduct Guidelines – Testlio
- What Is Generative AI? – LinkedIn Learning
- Learning Microsoft 365 Copilot – LinkedIn Learning
- Generative AI: The Evolution of Thoughtful Online Search – LinkedIn Learning Career Essentials in Generative AI – LinkedIn Learning
